Lorena,

LADOT's Engineer will first need to conduct a site visit to review the area and the BID's proposal to fill in one of the planters and conduct electrical upgrades. We will need the following information before the site visit is conducted:

1. What is the use of the new concrete pad and its impacts on the accessible space next to it?
2. What is the wiring for? There appears to be another conduit running to the same spot.
3. Who is responsible for paying for the power?

If approved, we will need to execute a Right of Entry Permit prior to the commencement of any work.

Thanks,

**Nancy Bower**

Nancy,

We are ready to begin the improvements on lot 735. Can you please let me know if you need anything else from us.

Thank you.

Lorena Parker
